

Death Comes to a Mighty Cruiser

(NEA Telephotos)

After withstanding shells, bombs and rockets, the U. S. S. Salt Lake City was struck by two torpedoes and sank slowly to her watery grave 135 miles off San Diego, Calif. A veteran of 31 wartime engagements with the Japanese and a survivor of the atomic bomb tests at Bikini, the gallant cruiser was still dangerously radioactive. Following five hours of heavy naval and aerial bombardment, torpedoes from surfaced submarines finally sent her rolling over. On a nearby ship, a naval chaplain read a short eulogy and a firing squad fired a rifle salute to the "fighting lady."

Hospital Wing In Full Use  
June 15, Moose Women Told

"Salem City hospital doesn't need to take a back seat for any other hospital," Miss Hester Willis, acting superintendent, told Women of the Moose when she was guest speaker at their 31st anniversary dinner Wednesday evening in the blue room of the Metzger hotel.

Reviewing the activities of the institution, Miss Willis stated that the hospital has rated fourth in the state.

Six rooms on the first floor of the new \$300,000 wing are already in use. The other rooms of the three-story addition will be ready for occupancy by June 15, giving the hospital an increased capacity of 45 beds, the superintendent said.

Lack of nurses is a problem facing institution officials, and this is not local, but general over the country, Miss Willis commented. However, 25 young women have enrolled in the class which will begin training Sept. 1.

Miss Willis expressed her appreciation to the chapter for the help given a student nurse.

The speaker was introduced by Mrs. Ethel Welch, hospital guild chairman, who conducted her chapter night program.

Two Are Honored  
Two charter members, Mrs. O. B. Warner and Mrs. Elizabeth Eckhart, were given special recognition and each received a gift, with Senior Regent Mrs. William Podmore making the presentation.

Mrs. Warner has an unusual record.

GM Contract Recognizes Three Worker Needs

(By Associated Press)

WASHINGTON, May 27—There are three important points in the agreement General Motors made this week to boost its auto workers' wages.

1. It may show the way for other companies and unions to agree on pay raises without strikes or trouble.

(The U. S. Steel Corporation has flatly refused a pay raise; the Ford Motor Company has suggested a pay cut; and workers are striking against the Chrysler Corporation for higher pay.)

2. So far as government and business officials here know this is the first important agreement tied directly into living costs.

(That means workers are given raises to meet living costs. If those

go down, the workers get a cut; if they go up, they get another raise.)

3. GM recognizes that workers, besides having to meet living costs, are entitled to pay that will boost their living standards.

In the past couple of years most unions have won pay raises because living costs have risen.

But they weren't tied directly into living costs, in the sense that the pay automatically would go up or down with living costs.

Simply, they were flat raises—because living costs had risen—for a fixed period, like a year or two, with no pay changes in that period. Yet, a number of firms—although no huge ones like GM—have given raises that were tied in directly with living costs on that up-and-down sliding scale.

But unions have argued for a long time:

If you try to tie in a man's pay directly with living costs, then a worker is always only just about able to make both ends meet.

It doesn't give him any of the money needed for more than just the day-to-day living. For example: Saving money to send his children to school or buying special things that are not necessities.

Getting more money than just enough to meet the usual living costs, the unions argue, means a man's living standards are raised.

As his living standards go up he can buy more things which, in turn, means more people employed to make those things, which means prosperity.

General Motors has offered its CIO Auto Workers' union both sides of that picture by agreeing to an increase of 11 cents an hour, this way:

1. Eight of the 11 cents to make up for an increase in living costs.

2. The other three cents as an "annual improvement factor to increase the standard of living of workers."

The contract is for two years. In that time the workers may lose some of the eight cents or get more than eight cents, depending on whether living costs in those two years go up or down.

But in that two-year period they will not lose any of the three cents given them to boost their living standards.

Next year, in fact, they'll get another three-cent living-standard raise, no matter what happens to living costs.

Yet, even if the bottom falls out of living costs in the next two years, the GM workers will not lose all of the eight cents they get now as a living cost increase. This is how it works:

GM figures now the straight hourly pay of its average auto worker is \$1.50.

With the new, total 11-cent raise—eight for living costs, three for living standards—he will not make \$1.61 an hour.

Every three months GM and the union will look at the government's figures on living costs.

If they've gone up in the previous three months, the workers will get

a living cost raise in addition to their eight-cent living cost raise. But what if living costs have gone down in those three months?

In that case the workers get some of their eight cents taken away but the company agrees never, in the next two years, to take away more than five of the eight cents. So here's where the GM worker will stand:

He's getting \$1.50 now. will get three cents this year and another three next year for living standards, a total of \$1.56.

To that \$1.56 is added eight cents for living costs. Total: \$1.64. If living costs hit bottom and GM takes back five of the eight cents, leaving the worker three, at the end of two years he'll still be making \$1.59.

'VOICE' PROGRAM ROUSES SENATE

LEGION LEADER FOR MUNDT BILL

Tells Senators 100,000 Trained Quislings Work In U. S.

(By Associated Press)

WASHINGTON, May 27—An American Legion leader told senators today 100,000 trained and seasoned quislings of the Communist "front" now threaten the United States.

Paul Griffith, past national Legion commander, made the statement before the senate judiciary committee. He asked speedy senate approval of the house-passed Mundt-Nixon bill to curb Communists.

"We have today in our midst the largest fifth column of potential spies, saboteurs, demoralizers, traitors, and wreckers ever seen in modern times," Griffith said.

He said the 100,000 "quislings are aided and protected" by an "estimated million or more fellow travelers, sympathizers and dupes."

Griffith testified the Communist party is "collecting a war chest" of \$500,000 in an attempt to defeat the Mundt-Nixon bill.

"Every fellow traveler, stooge and deluded dupe has been thrown into the line," he said.

As the three-day hearing opened, Chairman Wiley (R-Wis.) ruled out "any political speeches"—by Henry Wallace or anybody else—Wallace, third party presidential candidate, has asked to testify against the measure.

Two From Salem Mt. Union Graduates

William L. Wark, son of Mrs. R. E. Wark, 187 S. Broadway, and Jay Hanna, son of Mrs. L. Hanna, 1439 E. Third st., are candidates for the A. B. and B. S. degrees at the commencement exercises at Mount Union college, Alliance, Sunday.

John Dale Russell, director of the Division of Higher Education in the U. S. Office of Education, Washington, will deliver the address to the 113 graduating seniors.

Wark majored in economics in preparation for a business career. He is a member of Sigma Alpha Epsilon fraternity.

Hanna majored in economics and chemistry in preparation for a career in business administration. During his four years at Mount he has served as house manager, marshal and sentinel of Sigma Nu fraternity.

Other Mt. Union graduates from this district include Margaret Louise Duff of Leetonia, Mary Jane Wilson of Beloit, Betty Mae Weir of Hanoverton, Robert Samuel Poto of Hanoverton and Georgeanne Kate of East Liverpool, all bachelors of art degrees.

No Concerted Plan To End Palestine's Troubles In Sight

(By Associated Press)

CAIRO, May 27—The war in Palestine raged on today without a sign of any concerted plan for ending the mounting bloodshed and destruction.

Arab rejection of the United Nations cease fire plea aroused grave concern among its delegates. The critical question: What will the next step be?

One anonymous spokesman for a big power delegation predicted the U. N. Security Council would take strong action. He said the organization had gone too far in its effort to bring peace to the Holy Land to back down now.

Strong action might include diplomatic and economic sanctions and even the sending of an international force to Palestine.

Warren R. Austin, U. S. delegate at Lake Success, said the situation was so serious "we requested careful consideration of our government. The U. S. State department has already sent about two dozen C-47 transport planes to Cyprus to evacuate American citizens from the Middle East in case the need arises."

The political committee of the Arab league in Amman informed the Security Council it would bargain over terms for ending the Palestine warfare. The committee gave the council 48 hours to submit the terms.

Efforts continued in London between American and British diplomats to work out a plan for ending the war in Palestine. Foreign Secretary Ernest Bevin told the house of commons he was pursuing a policy to end hostilities, but declined to give out any details.

Inside Palestine the battle for the old walled city of Jerusalem and the highway leading west to Tel Aviv held major attention. Tel Aviv was subjected to a dive bombing attack last night.

Vandenburg Refutes Desire for Top Post

NEW HAVEN, Conn., May 27—Sen. Arthur H. Vandenburg (R) of Mich., said in a letter released today that he has "no desire or intention of being a candidate for the presidential nomination."

"No one could be insensitive to the very high compliment which you are paying me," Sen. Vandenburg wrote to the "Young Republicans for Vandenburg" club, adding, "I hope you will not persist in your proposed organizational efforts."

"I am sure I can best serve my country by completing my present tour of duty in the senate."

File Suit Against Firm

CLEVELAND, May 27—A \$100,000 suit was filed against Harris-Seybold Co. by the CIO United Electrical Workers union yesterday. The union charged the concern with refusing to carry out its labor contract. The UEW claimed the company recently petitioned for a NLRB election to determine which union should represent its workers, although its UEW contract does not expire until October.

State Department Radio Show Draws Ire Of Committees

(By Associated Press)

WASHINGTON, May 27—Sputtering mad senators called the State department on the carpet today for a full story behind Voice of America broadcasts they labeled as sabotage, slander and libel.

Sample broadcast excerpts: "New England was founded by hypocrisy and Texas by sin."

Nevada's two main cities compete with each other because "people get married in Las Vegas and divorced in Reno."

From Senator Hatch (D-NM): "Drivel, nonsense and downright falsehoods."

From Senator Ferguson (R-Mich):

A demand congress rescind the \$27,000,000 appropriation it voted for next year to finance the world-wide radio programs intended to portray the democratic way of life in this country.

Angered congressmen ordered a double-barreled investigation today into the broadcasts.

Senator Ferguson, the Republicans' top investigator, will head one by the senate.

Rep. Chenoweth (R-Colo.) will direct one for the house.

From Senator Capehart (R-Ind.): A promise to introduce a resolution calling for a top-to-bottom congressional inquiry into the State department's operation of the information program.

From the National Broadcasting Company, which handled the programs under contract with the department: The writer who turned out the scripts has been fired and the supervisor who reviewed them has been "relieved of his post."

This, however, failed to dispel the storm.

It broke in the senate late yesterday when Capehart read excerpts from a series of programs broadcast late in 1947 and early this year to South and Central America. The Indians senators said they purported to deal with life and history in the 48 states as seen through the eyes of the travelers.

One scrip on Utah referred to Brigham Young, the Mormon leader, as "carrying a bottle of whiskey in one pocket and a cud of chewing tobacco in the other." But, said the scrip, Young used neither.

Quoting further, Capehart read that Alabama's Birmingham was constructed in a hurry and they have not had time to improve it. "The same broadcast called Alabama the 'darkest' of all the states."

"In no other part of the United States have the colored people suffered and struggled as much as here."

Neither Alabama senator was on hand when that state was first mentioned. So Senator Eastland

TRADE AGREEMENT - ACT UP TO SENATE

House Overwhelmingly Passes GOP Limiting Legislation, 234-149

WASHINGTON, May 27—Administration hopes for a longer than one year extension of the Reciprocal Trade agreements act faded today. The only question is whether the senate will go along with the house in curbing the President's tariff-making powers.

Democrats promised a "very hard fight"—first for a full three year extension and, if that fails, for a single year extender without the checkreins the house insisted upon by a 234 to 149 vote late yesterday.

Bitter debate preceded the house roll call. It ranged all the way from Secretary of State Marshall's whereabouts the night before Pearl Harbor to Alf M. Landon's plea last weekend for his fellow Republicans to abandon their own bill.

But the outcome was never in doubt. The GOP leadership was in full control.

Administration supporters were more hopeful in the senate.

Poppy Day To Be Held In City On Saturday

"Poppy Day" will be observed in Salem Saturday by members of the American Legion and Veterans of Foreign Wars auxiliaries, it was announced today.

The memorial flowers of United States fighting men who died in battle will be sold in buildings, stores and on the street Saturday to provide rehabilitation and child welfare funds in this district.

Local funds collected by the Legion will be used to maintain a 36-bed ward in the Dayton Veterans hospital, which has been "adopted" by the local auxiliary. V. F. W. funds will go for similar work.

Selling the poppies, which are made by hospitalized vets or their families, will be members of the auxiliaries, their sons and daughters, and regular members of the two veterans organizations.

## An Issue Becomes a Situation

It may surprise those who have taken reciprocal trade agreements for granted to learn that the principle behind them is under concerted attack by a section of the Republican party in congress. They thought the tariff issue was dead.

The vote in the house of representatives Wednesday to extend a modified reciprocal trade agreement act by one year is interpreted as the first move in an attack to repeal this 14-year-old law in the next session of congress.

Though no detailed substitute yet has been proposed with united Republican backing, testimony in hearings and bills introduced in the senate indicate that the party's general line of policy will be to take away tariff powers now exercised by the chief executive and give them to a commission answerable to congress and charged with responsibility for restoring to the tariff structure the element of selective protection for domestic enterprise.

The tariff issue wasn't eliminated by the reciprocal trade agreements act of 1934 and its subsequent amendments. It was only suspended. When President Truman asked congress on last March 1 to extend the act for three years, the issue was reopened. The reopening has led to a situation that will require Mr. Truman either to sign a bill extending the act, which otherwise would expire June 12, for one year—accepting the modifications proposed by the Republicans—or veto the bill and lose the trade agreements program outright.

There is a possibility he might choose to use his veto, thereby putting the reciprocal trade agreements policy into the 1948 presidential campaign. In any event, the tariff issue is back in national politics.

## Whose Nose Gets Cut?

Unanimous approval of a resolution by members of the Railway Labor Executives association to give the federal government full and complete control of the nation's railroads is a puzzling action.

Could it be that the union leaders have done it in an attempt to frighten railroad management?

If so, could it be that the union leaders may have frightened their own membership more than they have frightened railroad management?

Does anyone believe the majority of railroad workers would prefer to be government employees?

These are among the questions raised but not answered by the resolution.

Public ownership of railroads is a possibility, of course. It has been a possibility for many years. Public operation was experimented with from January, 1918, through February, 1920, when the government operated all railroads as a single system, at a net cost to the U. S. treasury of \$1,235,000,000.

Many thoughtful persons have explored the possibilities, but always have reached the conclusion that the advantages of government ownership were offset by the disadvantages. And none of them has been able to make a satisfactory rebuttal to the railroads' argument that if they could set their rates in accordance with costs of operation and be relieved of some of the restrictions of government control, the case for government ownership would disappear.

The last time the Railway Labor Executives association asked for government ownership was in 1935, when railroad management wanted to cut wages to stave off bankruptcy in the depression. Nothing came of the move at that time, though legislation was introduced in congress to carry out the union leaders' resolution. It looked as though they were in danger of cutting off their nose to spite their face. It looks pretty much the same way in 1948.

## Plain Talk From Vinegar Joe

The latest set of war memoirs to be published are those of Gen. Stilwell. Set down in a peppery style that might best be described as American vulgarity, these writings are the most outspoken of all that have appeared to date. Even after being toned down by a friendly editor, they will ruffle feathers in high places.

Stilwell was a hardbitten old soldier with impatience for anything less than perfection. His dislikes were many. He notes that President Roosevelt received him "as if I were a constituent in to see him;" he found Harry Hopkins "strange, gnomelike creature;" he respected Secretary Stimson; at first he disliked Lord Mountbatten but eventually conceded he was a good soldier "despite his long eyelashes;" he made no attempt to conceal his dislike for Gen. Chenault, Chiang Kai-shek and all the navy brass.

Perhaps the most interesting section of the memoirs is his account of the days immediately following Pearl Harbor when Stilwell was charged with defense of a sector of the California coast. The hopeless confusion, the pitifully small inventory of military supplies (six tanks were in running condition), and the consternation caused by the persistent rumor that the main Japanese fleet was off San Francisco—all point to the fact that a small but efficient invasion force could have seized the west coast.

## Hawaiian Statehood Loses Again

The Hawaii statehood bill has been pigeonholed because of the senate's reluctance to discharge the measure from committee and bring it to the senate floor.

Both houses rarely approve discharge petitions and it is probable that senatorial courtesy rather than the merits of the issue led the senate to allow the bill to die. Even within the committee it lost by the close vote of 7 to 5. Now it will be necessary to re-institute the entire long procedure of house and senate hearings and investigations to bring up the matter again at the next session.

Hawaii statehood proponents have had a long, discouraging experience and the end is not yet. There will be more committee rulings the blocks, the same old statistics slightly revised to be brought up to date; the same pro and con arguments. At the end

ment the only grain of hope that statehood supporters can find is that this time their hopes were closer to realization than ever before.

## Restoring An Alienable Right

Under a new NLRB ruling, employers have the right to assemble their employees in company time and advise them not to join a union provided the speech contains no coercion or promises of benefit.

The ruling was made under the "free speech" clause of the Taft-Hartley act which rescinded a 1946 NLRB ruling to the effect that it was unfair labor practice for an employer to make an anti-union speech.

In reversing the 1946 ruling, the NLRB is carrying out congress instructions. It is no tribute to the board that congress itself finally had to guarantee freedom of speech as provided under the first amendment to the Constitution.

The Stars Say

For Friday May 28

By GENEVIEVE KEMBLE

IN spite of several static, congested and disturbed conditions, there should be definite progress made in putting important and long-range propositions over, with lasting and very substantial returns. This by a concerted marshalling of varied forces and talents, with ingenuity, application and hard work, supported by clever strategies, in which intuition or "hunches" may play more than a minor role. Well-organized plans shrewdly executed, with the long-view should reach solid ground.

For the Birthday

Those whose birthday it is are encouraged to plan carefully, with far-range vision and solidarity in sight. A policy of clever strategy and perhaps secret plots, put over with determination, concentrated efforts, and practical techniques could attain enduring and lasting security. Working to this end, for substantial futures and possessions, perhaps heading shrewd "hunches" or intuitive leads might have power to remove obstacles and plant genuine creative foundations. But submit emotions of urges to logic and common sense, for best results.

A child born on this day although possessing shrewd and clever emotional leads or impressions, also has good judgment and stratagem to back up its ideals.

When you get provoked because a radio doesn't work so well in summer, just stop and think—do you?

A fly lays about 200,000,000 eggs. And apparently they all hatch.

College men teach everything, judging from what many graduates think they know.

## GUARDING YOUR HEALTH

## Breast-fed Baby Is Healthiest

By HERMAN N. BUNDESEN, M.D.

There is no doubt in the world that "the breast-fed baby is the best-fed baby." This is a proved fact and it has also been definitely shown that nine out of every ten women who try to nurse their babies will have enough milk for them by the fifth day after birth.

Why is it then that in so many localities today less than one-third of our babies are breast-fed? The plain truth is that too many modern mothers simply don't want to nurse their infants. And if the breasts are not emptied regularly and completely, the milk supply soon fails.

## Mistaken Idea

Some mothers even have the utterly mistaken idea that the bottle-fed baby will gain faster and get along better than the breast-fed infant. Others frankly object because they believe breast feeding will cause them to gain weight or change the shape of the breast.

Neither of these things is true and, if they were, they would still not justify a mother in refusing to nurse her baby.

The things which do are few in number and of infrequent occurrence. Chiefly, they are an acute illness, inflammation of the breast, cracked nipples, or pregnancy.

Another reason can be found in the conflicting blood types which sometimes exist in mother and babe. Thus, it is inadvisable for a mother who is Rh negative to nurse her Rh positive baby. The Rh refers to a certain factor in the blood which may be present in the infant and not in the mother.

Now and then, in rare cases, the baby may actually be sensitive or allergic to the mother's milk.

## Many Advantages

Where it is possible at all, breast feeding has many advantages and no known disadvantages. Besides giving the baby a perfect diet for his physical nourishment, breast feeding supplies an emotional satisfaction to both mother and infant which cannot be obtained in any other way.

The mother who is breast feeding her baby need not gain weight if she employs a well-balanced diet that does not contain an excessive amount of starchy foods, sugars and fats. Otherwise, she need not restrict herself, but may eat any food that agrees with her.

## Moderate Smoking

There also has been a question in the minds of some mothers as to whether or not smoking is permissible if they breast feed their babies. It seems to be generally agreed that moderate smoking will not be harmful to the infant.

Some specialists think it is all right for the mother to give the baby one bottle feeding a day, so that she will not be completely tied

down and carry on her social and other activities.

It is very important that the baby get breast milk during the first four or five months of life, during which time the mother's activities will be limited to some extent in any event. Every mother owes it to her baby to make every possible attempt to breast feed him.

## QUESTIONS AND ANSWERS

E. H. S.: What causes the skin around the fingernails to become cracked?

Answer: This may be due to eczema or dermatitis. A fungus infection might be responsible.

The dermatitis may be due to the fact that you are sensitive to something with which you come in con-

tact. A thorough study by a skin specialist would be advisable.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th St., New York City.

## Revelry On Fishing Boat Stumps Law Enforcers

MONTEREY, Cal. — Members of the destroyer U. S. S. Thomason anchored in Monterey harbor heard sounds of a joyous party aboard the nearby purse seiner Petrina F. Then they noticed the fishing vessel was adrift.

A boarding party was sent out from the Navy ship to remove the revelers from the Petrina F. But they overlooked the seiner's engineer, doing his celebrating below.

Soon the Petrina F. got under way and began an erratic course around the harbor. The Coast Guard's 83-foot rescue craft got a

line aboard to keep the seiner off the beach and then sent the bottle-

happy engineer ashore.

Police couldn't do a thing. The vehicle code doesn't say a thing about drunken driving in a purse seiner.

## Schoolboys Organize To Preserve Peace

MERCHANTVILLE, N. J.—Half a dozen eight and nine-year-olds have tossed aside the pessimism of their parents and formed the nucleus of what may become a widespread "Boys for Peace" movement. The boys are in the fifth grade

of the Roosevelt school here. Their purpose, they say, is "to keep our generation from being as foolish as the last one."

Each Saturday afternoon the boys meet and talk over current problems, learn more about the United Nations, and try to understand the people of the world they live in. Eight-year-old Donald Love, founder and president of "Boys for Peace," explained: "We certainly think America is worth defending, but we want the world to find a peaceful way to solve its problems."

Grant Thorburn, New York mail-maker, was the owner of the first seed store in the United States.

LUBRICARE—  
tailor-made lubrication  
for Buicks

It's lubrication made to measure for your Buick by the engineers who built the car—with lubricants carefully chosen for just one reason: they are best for your Buick.

Men who know Buicks thoroughly see that all the different points that need it are properly supplied with exactly the right kind and right amount of lubricant.

You're away knowing your car is protected and yet to roll smoothly and dependably with lubrication that has been matched to the mileage you have driven.

SEE YOUR BUICK DEALER  
REGULARLY FOR LUBRICARE

No wonder you grin! There's that *zoom* again—that *go*—that flashing spirit that you know is built in Buicks. There's that split-second answer to your call for power, the feather-light response to your finger that makes your two-ton honey handle like a baby buggy.

This is what happens when a Buick is cared for by men who know Buicks best—men who know the height of spirit a Buick can reach and how to bring it out.

Buick men have a way with Buicks no one else can have. That's only natural. Whatever they do, they do as the designers and builders of Buick say it should be done. They use Buick-approved checks and

tools. And when time and miles finally take their toll in wear, they have right at hand a stock of Buick-engineered replacement parts.

Wheel in and they'll sweeten your engine to bring out all its surge and go. They'll steady your car's easy gait and make steering limber. They'll even take out your worn engine and give you new-car zing and power with a factory-fresh Fireball.

See for yourself. Bring your car in and get real understanding Buick car care. You can't buy it anywhere else—and job for job it doesn't cost you a penny more.

## AWARD DIPLOMAS AT COLUMBIANA

**Evan Lodge Is Speaker;  
Wilma Kabler Receives  
Cash Award**

COLUMBIANA, May 27—Diplomas were awarded a class of 45 at the 67th annual commencement exercises of the Columbiana High school in the high school auditorium Wednesday evening.

Evan A. Lodge, supervisor of Englewood in the Cleveland public schools, was the speaker. P. D. Lodge, a son of Mr. and Mrs. P. D. Lodge of Columbiana, gave the commencement address. His subject was "Our Heritage."

Fred Detweiler presented the annual Detweiler cash award of \$50 to Wilma Kabler selected by the school authorities for outstanding scholarship, leadership and citizenship. She is the daughter of Mr. and Mrs. F. W. Kabler of 407 Fairfield ave.

H. F. Richmond, superintendent of schools, presided for the commencement program, which included instrumental music by the High School orchestra under the direction of M. R. Wheeler, instructor in instrumental music, vocal music by high school girls under the direction of Mrs. Jean Ralph Snow, supervisor of music, and a piano number by four of the graduates, Audrey Michaud, Lois Antram, Eileen Guy and Joan Zellers.

Principal D. W. Bailey of the High school presented the class of 1948, and Earl H. Newell, president of the board of education, presented the diplomas.

**Elevators to Have Heavy Base**  
A heavy base of solid concrete three feet thick is being put in by the Sponseller Construction Co. of Salem to sustain the weight of the four grain elevators with their 50,000-bushel capacity being erected by the Columbiana Milling & Supply Co.

The elevators will rest on the square base, 35 feet by 37 feet, five inches. There will be provision for conveyors through the concrete and for other machinery in the center. The elevators will be used principally for wheat, but partly for other grain at times.

**Youngs Have Busy Schedule**  
The Columbiana Youngs have a busy schedule for the weekend. Friday evening at 6 o'clock they will play Leetonia. Sunday afternoon the Canton Fairmount team, and Monday a double header beginning at 1 o'clock with Saffron's team, leaders in the Youngstown AA league.

Rev. Fred Esenwein, Pittsburgh Methodist minister, who will retire at the next session of his conference, has bought of the Grove estate the residence on the west side of Vine st. occupied by Paul Johnson and family.

**Club to End Season**  
Officers have been elected by the Mothers club for installation at a picnic at Firestone park Wednesday, June 3, which will conclude the season. The officers are:

President, Mrs. Louis D. Bair; vice president, Mrs. James Churchfield; secretary and treasurer, Mrs. R. T. Hepburn. The committee on arrangements for the picnic is Mrs. A. M. Poulton, Mrs. C. H. Reinher and Mrs. W. B. Longshore; on entertainment, Mrs. Hepburn and Mrs. R. F. Campbell.

Mr. and Mrs. Louis Raynes of Portland, Ind., are visiting here, having come to witness the graduation of their daughter, Eleanor Mae Raynes, from Columbiana High school. Mr. Raynes was formerly with the Columbiana Milling & Supply Co. and when the family moved to Indiana last year, the daughter remained to complete her high school course.

## Golf Club Women Plan Season's Activities

Activities for the season, which include a big Guest party and four out-of-town invitations, were outlined at a delightful breakfast party held by the Women's Group association of the Salem Golf club Tuesday morning at the club.

Pots of Ivy were used effectively in the decorations and places were arranged for 45.

Mrs. Frank Brian, general chairman, and Mrs. John Gonda, golf chairman, conducted the business session.

Mrs. Gonda introduced the club pro, Andy Mocsary. He conducted an open discussion on golf rules in general.

Mocsary will give a half-hour free instruction lesson to members of the group beginning at the opening session of the season at 9:30 a. m. next Tuesday. The regular flag tournament, a buffet luncheon will follow.

Out-of-town events are as follows:

Alliance Country club, Tuesday, June 22; Steubenville, Wednesday, June 23; Tippecanoe Country club, Youngstown, Tuesday, June 29; Williams Country club, Weirton, W. Va., Tuesday, July 27.

The Salem women will have their guest day, Tuesday, July 20, at which they will entertain the four above out-of-town clubs and also guests from this city.

Mrs. Lea Cobbs is secretary-treasurer of the association. Committees are:

Golf — Mrs. Gonda, chairman; Olive Ramsey, Mrs. Walter Hartsock and Mrs. George Perrault. Luncheon and Maintenance — Mrs. R. T. Holzbach, chairman; Mrs. Eugene Young and Mrs. Chester Gow.

Hostess — Mrs. G. T. Harding, chairman; Mrs. Arthur Brian and Mrs. N. I. Walken.

### Ruth Circle Plans Friday Meeting

Ruth circle members of the First Friends church will meet at 8 p. m. Friday at the home of Mrs. H. C. Stratton, Buckeye ave.

Miss Steepee, returned missionary from India, will be guest speaker.

John Sosenko, 23, laborer, Leetonia, and Eleanor Mae Raynes, 17, Columbiana.

Lester D. Clingerman, 19, truck driver, Youngstown, and Margaret Hammon, 16, Salem, R. D. 4.

Robert S. Thomas, 23, taxi operator, and Dolores Youst, 21, East Liverpool.

Rev. and Mrs. E. M. Parks of E. Second st. will leave Friday for Wollaston, Mass., where their son, William, is a student at Eastern Nazarene college. William will return with his parents. The Parks will be accompanied by Miss Jean Thorne of Salem and Rev. James Jones, missionary to Barbados.

## WORK

(Continued from Page 1)

ley-Meyer Co. of Youngstown is the contractor.

Work on State Route 172 between Lisbon and Guilford has been started by the Kane, O'Hare & Haenny Co. of Youngstown and when completed the entire length of the old State road in Columbiana county will have been improved.

This project includes the grading and paving of a 1.354-mile section and the construction of a new bridge over Cold run, at a contract bid of \$142,643, and is slated for completion Oct. 31.

This firm also has been awarded a contract for a one-third mile improvement for the purpose of eliminating a hazardous approach of State Route 518 to State Route 164. This will be completed July 31 at the cost of \$1,941, Gonzalez said.

Work on the grade crossing elimination on State Route 7 just south of State Route 14, will begin about July 1, with completion date Nov. 30, 1948.

The Carl Myers Co. of Columbus was awarded the contract on a bid of \$449,612.66, the project, 0.968 miles in length, including a new bridge over Turkey run and a bridge over the Pennsylvania railroad tracks near Columbiana village. It will be a 44-foot roadway with a 24-foot concrete pavement.

## STATE

(Continued from Page 1)

(D-Miss.) jumped into the breach, declaring it was all a "contemptible, damnable lie."

Then Senator Hill (D) of Alabama arrived and denounced the broadcast all over again. He said it was "a gross slander" of his state.

By the time Carphart got around to New England and Texas, the whole chamber was laughing.

"This whole thing is saturated with malice," shouted Senator Connally (D-Vt.). "They are subversive. They are traitors to their country." Senator Brewster (R-Me.) said the author of the broadcast "is worthy of language I don't think this chamber would entertain."

Senator H. Alexander Smith (R-N.J.) said he had been in touch with the state department and was told a preliminary report would be submitted to the senate today. It was Smith who led the winning battle against this year for full authorization of the Korean program, previously cut off under wartime white house authority.

Poland and France Agree to Aid U.S. in Korea  
The United States and Poland and France have agreed to aid the United States in its efforts to bring about a peaceful settlement of the Korean situation, according to a statement issued by the State Department today.

### Presents Paper Wehn Class Convenes

That our nation was founded by men and women who had a profound faith in God was stressed in the paper presented by Mrs. J. W. Steinebach at the meeting of the Presbyterian Women's Bible class, Wednesday afternoon.

A short entertaining program by the Kindergarten youngsters, directed by Mrs. Robert Dunn was enjoyed, concluding with two piano solos by Mrs. Harold Babb.

Refreshments were served by the hostesses, Mrs. F. J. Tate, Mrs. I. H. Cooke, Mrs. Lillie Wolgamuth.

### Mrs. Steinebach and Mrs. Eva Astory

Mrs. Anne Holloway is class teacher. On June 30 the members will meet again at the church.

Mrs. R. W. Broomall of N. Ellsworth ave. was one of the speakers at a mother-daughter luncheon given by the Greentown American Legion auxiliary Tuesday, Mrs. Broomall, who is 10th district president, was accompanied by Mrs. Arthur Greene of Paris, department president.

The condition of James (Jim) Callahan, son of Mr. and Mrs. Charles Callahan Franklin rd., who underwent an operation in the Central Clinic, is reported favorable.

### Cameo Club Meets With Ann Moore

Misses Alice Stallsmith and Martha Bush won game prizes at a meeting of the Cameo club Tuesday evening at the home of Miss Anne Moore, Washington ave. Refreshments concluded the social period.

The June 8 meeting will be at the home of Miss Alice Whinery, S. Ellsworth ave.

The condition of James (Jim) Callahan, son of Mr. and Mrs. Charles Callahan Franklin rd., who underwent an operation in the Central Clinic, is reported favorable.

## Leetonia Couple Married 50 Years

Mr. and Mrs. John Lees of Pearl st., Leetonia, will observe their 50th wedding anniversary with an open house reception from 7 to 9 p. m. Sunday at their home. No cards have been issued.

A family dinner is being arranged for late in the afternoon.

Married in England May 30, 1898, the couple have resided in Leetonia since 1919.

They have seven children: Mrs. Joseph Jovic and Mrs. George Tracy of Salem; Mrs. Stanley Starkey and Cyril Lees of Franklin Square; Mrs. Rebecca Hirst of Cleveland; Mrs. Anthony Cincinelli and Wilford Lees of Leetonia, 14 grandchildren and six great-grandchildren.

### Mrs. Keller Hostess To W. S. C. S. Group 1

A luncheon meeting of Group 1 of the Methodist Women's Society of Christian Service was held Wednesday at the home of Mrs. Dallas Keller, E. Third st., with Mrs. Charles Cornwall associate hostess.

## N. Georgetown To Observe Holiday

NORTH GEORGETOWN, May 27  
— Memorial Day services are being  
planned for Sunday afternoon, May  
30, at North Georgetown.

The George D. Worth post 574 of  
the American Legion and the firing  
squad of the Weybrecht post of Al-  
liance and those who wish to join  
in the march to the cemetery will  
assemble at 2.

Following the services at the cem-  
etry, they will assemble at the Lu-  
theran church where George D.  
Floyd of Alliance will deliver the  
Memorial day address.

## Only Legless Persons Work For This Company

DALLAS, Tex. — Handicapped  
persons, the only kind it employs,  
are the key to success of a Dallas  
firm which has been in operation  
here since 1914.

It is the Hedgecock Artificial

Limb & Brace Co. The firm em-  
ploys only 12 persons but because  
they have met and mastered their  
own problems, they are better  
equipped to help others, says Mrs.  
D. E. Hedgecock, owner of the firm.

"We don't employ anybody who  
isn't minus a leg," she said. "We  
think such persons are more in-  
terested in their work. Also, we  
feel that they have something in  
common with the customers."

## NEW JERSEY WILL AID VANDENBURG

TRENTON, N. J., May 27 — New  
Jersey's delegates to the Republican  
convention, having looked over the  
three leading GOP presidential con-  
tenders, were reported ready today  
to throw their support to a fourth—  
Sen. Arthur Vandenberg.

The parade of aspirants for the  
nomination came to an end last  
night when Gov. Thomas E. Dewey  
spoke to the delegates at a closed  
dinner meeting. In the past month  
they also had heard Sen. Robert A.  
Taft and former Gov. Harold Stas-  
sen.

## Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose  
false teeth slipping, dropping or  
wobbling when you eat, talk or  
laugh. Just sprinkle a little PAS-  
TEETH on your plates. This pleas-  
ant powder gives a remarkable sense  
of added comfort and security by  
holding plates more firmly. No  
gummy, gooey, pasty taste or feel-  
ing. It's alkaline (non-acid). Get

## "FEED GRINDING WAS A TWO MAN JOB—"

SAYS

Allen Gibboney, Brax Bonnie Farms,  
R. R. 2, Bradford, Ohio.

"Now, with complete electrical equip-  
ment, one man does it."

At the left Mr. Gibboney uses his  
electric grain grinder . . . just one of the  
many jobs done electrically on Brax Bonnie  
Farms to make the work go faster with  
less hand labor.

Like Mr. Gibboney, many Ohio farmers  
know from actual experience that feed costs  
are lowered with the use of an electric  
grinder, and the saving in work and time  
soon pays for it. In addition, the stock has  
the advantage of fresh ground feed every  
day . . . an important factor in raising and  
keeping stock healthy.

At the right Clarence Gibboney adjusts  
a corn sheller, which, along with an ear  
corn crusher, is mounted on the second  
floor. The ear corn is dumped into the  
elevator pit from the bottom of the crib  
and carried up to the hopper easily,  
efficiently.

These are just a few of the dozens of  
ways cheap electricity can be put to work  
on your farm to save time, effort and  
money. For further information on the ad-  
vantages of electric farm equipment, see  
your county agricultural agent, your ex-  
tension agricultural teacher, or visit us  
at our new offices. Our rural super-  
servisors will be glad to help you in  
planning for greater use of cheap electricity  
on your farm. There is no charge in  
voluntarily joining the service.

## '48'ers Rush After Uranium In West

MOAB, Utah, May 27 — Hardy 48'ers who battled the elements and each other in a headlong rush for precious gold would feel at home in the Rocky Mountain West today. Prospecting fever — with a modern touch — is raging rampant through three states, Utah, Wyoming and Colorado. Probably one of the busiest centers of activity is Moab, a little town in southeastern Utah.

The scene has changed from the days of the gold rush. Instead of pack mules and hardback, the prospectors are equipped with jeeps and trucks, special rations, and modern scientific equipment.

And this time, the magic word is "Uranium"—key element in man's struggle to conquer the secrets of the atom.

Staking Claims A Year Or More

Foresighted men — and women — have been staking claims in the three states for a year or more.

A recent announcement by the Atomic Energy Commission that a definite buying program and control policy will be established encouraged renewed activity. Uran-

ium prospectors now are swarming over areas of known deposits in ever-increasing numbers.

Miners have been registering claims for the prized element by the hundreds at the county recorder's office in Moab. Apparently, that's uranium in them thar hills.

## Spring House Cleaning Is Apt To Be Perilous

NEW YORK — The Greater New York Safety Council recalled that mishaps in homes caused 1,756 deaths in the city last year and laid down rules for spring house cleaning.

The council advised:

Take it easy; wear appropriate clothing; check all equipment, use the right kind and don't leave it lying around; leave straight pathways to doors when rearranging the furniture, and quit for the day when fatigued.

## U. S. Food Production Is Increased One-Third

CHICAGO—Secretary of Agriculture Clinton P. Anderson has revealed that United States food production is about one-third above the pre-war average.

Writing in the National Associa-

tion of Retail Grocers bulletin, Anderson predicts that citrus fruits will be abundant and inexpensive in 1948. The supply of both fresh and canned vegetables, he said, will be adequate to meet unusually heavy requirements.

Anderson reports that civilian consumption of canned vegetables had jumped 41 per cent over the 1935-39 average. Meat consumption is up 23 per cent, fresh fruits 7 per cent, fresh vegetables 11 per cent and eggs 27 per cent.

## Knock the props out of high food bills

— with a General Electric Home Freezer

One way to get around the high cost of food is to buy when prices are lowest—at the peak of the season.

Buy spring fryers by the dozen in the spring... enjoy them in the fall.

Buy strawberries in June—serve them in December.

Buy choice beef, lamb, and other meat at "sale" prices... keep it for months.

When you have a General Electric Home Freezer, you can keep most food fresh, flavorful, and nutritious up to a year. You save many a dollar!

### The freezer to buy

The home freezer you want, of course, is the one that gives you the most dependable service. When you compare, we believe you will agree, without question, that the General Electric Home Freezer is your best buy.

The G-E Home Freezer has the famous G-E sealed-in refrigerating system so successfully used in General Electric Refrigerators. More than 1,700,000 of these refrigerating systems have been giving satisfactory service in homes for ten years or longer.

Remember, General Electric's know-how covers a thorough knowledge of the refrigeration and freezing of foods, born of years of experience in our Food Research Laboratories.

## Thousands Routed By Western Floods

Thousands of persons fled their homes in the Richland-Pasco-Kennewick area of eastern Washington today as flood waters lapped over dikes, flooded several trailer camps and threatened numerous others.

Estimates of the number of evacuated persons varied widely. Bencon County Sheriff Harry Cochran reported earlier that 200,000 persons would be forced to move. Later reports by the sheriff's office, Kennewick city police and state patrol placed the figure closer to 5,000.

The exodus covered an eight mile strip from Pasco to the mouth of the Yakima river. Both the Yakima and Columbia rivers are at flood stage.

A cloudburst above Yakima last night increased the anxiety of river residents.

Those of the evacuated families employed at the Hanford Atomic energy plant were given passes and moved into a government trailer camp at North Richland inside the Hanford works.

Others took up temporary stands at a former government trailer camp south of Kennewick. Reports said the Connell trailer camp in Pasco was completely flooded. Across the river at Kennewick, water poured into a second camp early today.

## NO PLAN

(Continued from Page 1)

Officers of the Trans-Jordan legion pressing the attack in the old walled city of Jerusalem said Jewish fighters were still holding out last night in Hurva synagogue, but claimed surrender is imminent.

The Jews held only 200 square yards of rubble-strewn ground, Legion leaders said. Arab dynamite squads blasted buildings surrounding the synagogue while artillery units pumped shells into the house of worship, turned into a fortress.

Catapult Barrel Bombs  
The Arab leaders said the Jews catapulted barrel bombs over the walls from outside Zion gate in a vain effort to relieve their beleaguered comrades.

The Arabs said a new request by the Jewish agency for a truce to remove about 300 Jewish women and children from the old city was refused. Arab leaders said they would not commit their troops to evacuation while the Jews remained in force on Mount Zion.

All Arab legion communiques revised upward to 800 the number of Jews claimed killed in the battle at Latrun west of Jerusalem, and said the Jews suffered a "crushing defeat" in fighting that extended over Latrun, Beit Jiz and Khulda settlements.

Khulda is about five miles west of Latrun, a key point on the highway which the Jews must use in efforts to bring supplies from Tel Aviv to the 90,000 Jews inside the Holy City. An Egyptian defense ministry communique said two Jewish planes attempting to supply a settlement of Deir Haym (presumably in the south) were forced down and their crews taken captive.

## Alliance Company Sues For \$325,000

CANTON, May 27—Three officials of the Alliance Seamless Casket Co. filed a \$325,000 breach of contract suit yesterday, claiming they failed to receive commissions on the sale of burial vaults for 150,000 U. S. servicemen.

John W. Merriam of Philadelphia and Galant Products Co. of Alliance were named defendants.

The plaintiffs—Edgar H. Turkle of Alliance, J. E. Nuss of Lakewood and C. C. Church of Cleveland Heights—claimed they perfected a seamless burial vault and had contracted with the defendants to sell 150,000 of them to the government. Most of the caskets have been used, they contended.

## The Nation Today

BY JAMES MARLOW

WASHINGTON—The three railroad unions, which threatened a strike, are up against a stone wall. Now they've suggested a way out for themselves.

They talk of "real" government seizure of the roads and even, in a vague kind of way, speak of the need for the government to buy up and own the railroads.

All this was said at a news conference called last night by the heads of 20 railroad unions. They are backing up the three which threatened to strike.

Before examining what was said, here is some background:

The three unions—Engineers, Firemen and Switchmen—have been in dispute with the railroads since last fall.

President Truman appointed a board of fact-finders to look into the dispute. The board suggested a wage settlement. The unions said it was not enough, and threatened to strike.

THEN ON May 10 President Truman did this:

1. He ordered the government to

seize the roads. So far this has been only a paper seizure. The railroad companies continue to run the roads, keeping whatever profits they made.

2. He ordered the government to get a federal court order (injunction) against a strike. That was done and it stopped the strike. The workers still are working.

Since that seizure May 10 the unions have been unable to talk the roads into giving them any more than Truman's fact-finders recommended.

So the union heads at last night's news conference suggested:

The government "really" should take over the roads. That would mean running them and taking whatever money the railroads are making—and, while so doing, reach a settlement with the unions.

And, in the written statement they issued, the union heads said this:

"Be it further resolved, that the government, moved by the present demonstration of the inability of railroad management to maintain satisfactory labor relations and conditions upon the railroads, and further in view of other recent and similar critical situations, as well as other failures of railroad management to meet the public need for efficient, prompt and full services, begin preparations for the transfer of railroad ownership from

private interest to the United States of America."

WASN'T THIS saying clearly the unions were urging the government to take over the railroads by buying and owning and running them?

No, the union heads said, it didn't mean that. They said it meant this:

The government should "really" seize the roads now—instead of letting the companies run them—and not only settle the present dispute but, in so doing, fix a policy for settling similar disputes in the future.

If the government didn't do this now and fix such a policy, they said, then the government ought to buy up the railroads and run them itself.

At first glance that may shock a lot of people. Government ownership of the railroads in this country, which prides itself on free enterprise, would be a big step toward Socialism.

But deep within it is a question which the union heads didn't answer to this writer's satisfaction.

American labor unions, including the railroad unions, want what is called "free, collective bargaining"—and that includes the right to strike—without any compulsory arbitration.

Compulsory arbitration means simply that the government appoints someone to decide a dispute

between a union and an employer. His decision is final. Both sides have to accept it. There can be no strike.

THE UNION heads said last night they don't want compulsory arbitration. But suppose the government steps in now and settles this dispute, giving the unions what they want whether the railroads like it or not.

That would be compulsory arbitration working one way: For the unions and against the railroads.

But it could work the other way too—against the unions.

And if the government owned the roads, the unions could hardly expect to be free to strike. That would be a strike against the government.

Now, without owning the roads at all, the government has stepped in and forbidden the unions to strike.

So in the end, under government ownership, the union would have to accept the government's final wage offer without a strike. That, in effect, would be compulsory arbitration although that's what the union heads said they don't want.

The union heads said they thought

even under government ownership they'd be free to strike.

### Viennese Get New Homes Without Bath Facilities

VIENNA, Austria—Of the 105,000 Viennese tenants who were bombed out of their apartments, 16,000 have been reinstated so far.

To alleviate the housing shortage, Vienna called for the building of 2,400 new one and two-room apartments this year. Every apartment will have its own bathroom but because of shortages bathtubs will not be installed for the time being.

The cost of an apartment is

estimated at about \$3,000, which includes the bathtub that will be furnished free of charge at an undetermined future date.

### Portuguese Men-of-War Hit California Coast

SANTA MONICA, Cal. — Swimmers are waging a losing fight against the amphibious attack of millions of tiny "Portuguese men-of-war" whose invasion marks the first of its kind here in 20 years.

Surf addicts and those who linger on the sunny sands report that the small, blue jellyfish packs a powerful sting that sometimes lasts 24 hours. No effective counter-measures have been found to turn the tide of battle.

The tiny floaters, dubbed "Men-of-War" because of a transparent triangular sail which rises from their 2½-inch-long bodies above the surface, are common in tropical waters at Samoa and off the southern Florida coast, but are rare in this section.

### Nazi's Wife Sues For War Spoils

VIENNA — Hans Wittke was the appraiser of the Nazi authorities in Vienna. Whenever a Jew was compelled to rid himself of his belongings in favor of an "Aryan," Wittke fixed the amount of compensation to be paid to the Jew.

Hans had his own price-fixing system. He wouldn't appraise a fur coat, valued at \$2,000 for more than \$2. He himself "bought" a house, a villa, a great many works of art, valuable furniture, furs for his wife and what not.

At the approach of the Red

Army, the Wittkes moved to more western regions. But that didn't help them much. Hans was arrested and is now under indictment as a bad war criminal.

Liese, the appraiser's wife, returned to Vienna where the Wittkes had sublet their apartment to the Vogthuber family. The Vogthubers did not expect to see the Wittkes again. So they took possession of the former Jewish furs, jewelry, lingerie and what else the Wittkes left behind.

Mrs. Wittke now is suing the Vogthubers. She asks compensation for the valuables they appropriated. But for the \$2,000 fur coat her husband had appraised at \$2, she does not ask for only \$2. She asks for the entire \$2,000. Whether she'll get it depends on the timing of the trials.

Should the sentence in the Vogthuber trial be pronounced prior to the sentence in the war crime trial, she might get some compensation. But if Wittke is sentenced as a war criminal and his belongings "acquired" during the Nazi regime are confiscated, she will not be able to sustain her claim.

### Bump System Tried Out On Road; Slows Drivers

ULEN, Minn. — The local civic commerce association, determined to slow down speeders entering the village, have advanced a new plan to control traffic.

The association appointed a committee to install "bumps" on

all country roads leading into town. "After they hit one of those bumps a few times, they'll slow down," a committee member explained.

Fly Snake Skins To N. Y.  
For Milady's Footwear

NEW YORK — Flying snakes need not necessarily signify a hang-over.

A \$20,000 shipment of cobra skins from Siam and India was landed at LaGuardia airport as the latest of a lengthening line of exotic cargoes flown by Seaboard & Western Airlines from remote corners of the globe.

Feminine fashion foibles dictated air shipment of this largest and most valuable reptile skin cargo. The two tons comprising over 30,000 individual skins, represent at least 10,000 pairs of shoes and countless accessories now at peak demand.

Scientist Speculates  
On A Lost, Old Planet

COLUMBUS — The solar system once may have had 100 principal planets instead of the presently known nine.

That is the theory of Dr. Carl A. Bauer of the University of Michigan observatory.

Dr. Bauer told a meeting of the American Astronomical Society that his theory is based on a long-standing hypothesis. The belief is that such a planet also was the parent of the thousands of asteroids or minor planets which inhabit the portion of the solar system between the orbits of Mars and Jupiter.

The supposed planet, Dr. Bauer said, would have had a make-up similar to that of the earth; nickel-iron core, intermediate shell of stony-metallic material and an outer mantle of rock. The planet probably was smaller than the earth, and therefore solidified earlier, he added. Dr. Bauer estimated that the planet exploded several hundred million years ago.

Shun Cold Showers And  
Be Healthy, Says Expert

NEW YORK — This country may lead the world in the number of bathtubs but many Americans don't know how to take a bath properly, according to Harold J. Reilly, for 30 years head of a health service here.

"A lot of people actually do damage to themselves by lack of proper bathing knowledge," Reilly said.

"They seem to think that sitting in a hot tub, using a lot of perfumed soap, shivering under a cold shower and drying by the brisk rubbing of a rough towel are essential parts of being clean and healthy. Actually, some of these things can hurt their health."

Sitting in a hot tub is all right as far as it goes, but that doesn't mean you're getting clean, he explained. The dirt that has come off is still with you when you get out because you have been sitting in dirty water. Tub bathers should finish off with a cooling—not cold—shower and pat—not rub—their-selves dry with a towel.

"Cold showers are never advisable except as a treatment by a physiotherapist for poor circulation," Reilly added. "Brisk drying overheats the body to the point where, if you go near a draft or dress immediately and go outdoors, you are likely to get some kind of muscular ache or a cold."

# Famous Columbus Harbor Hills Polo Club To Open Season Here Sunday, Monday; Air Show Planned at Sunday Tilt

## N. Ellsworth Road Field In Shape, Salem Poloists Ready for Active Season

Headlining Salem's Memorial weekend sports program Sunday and Monday will be the formal opening of the 1948 polo season with Salem's riders facing the nationally-known Columbus Harbor Hills club in a two-game program at the N. Ellsworth road field.

Games Sunday and Monday begin promptly at 3 p. m. with an air show, arranged by Sam F. Keener, scheduled to begin at 2:30 before the Sunday contest.

The Columbus outfit, a recognized member of the American Polo association and bearing a top rating from the national organization, is truly a feature attraction.

Harbor Hills joined the Penn-Ohio polo league, of which Salem is one of the charter teams, last year and began what has developed into an intense rivalry with Salem.

The two teams played four games last season, Salem winning one, tying one and Columbus winning two. The series this weekend is a part of a home and home arrangement, Salem planning to travel to Columbus later in the season.

Ralph Barnett fills the No. 1 position for Columbus, with Frank Harris at No. 2, Ralph Fitch No. 3 and Walter Schaffer No. 4. Edgar Kennedy is extra man and plays all four spots in the lineup.

The Columbus players are all members of the American Polo association and have "big time" reputations in the pony sport field.

One of the features of the string of 14 ponies Columbus brings along is "Rainy Day," a pony used by Fitch. The horse formerly belonged to the late Will Rogers and was used extensively as a polo pony when Rogers was actively interested in the sport.

Fitch, incidentally, is considered one of the hardest hitting poloists in the mid-west and carries a high rating nationally.

Schaffer captains the Columbus club, which has been active since 1930 and annually meets the larger city teams throughout the midwest, including Detroit, Toledo and Chicago.

The team will arrive in Salem Saturday and may go through some practice paces at the field Saturday afternoon.

Salem's personnel this year is still indefinite as to starting lineup. The team has been rehearsing twice a week and the results have been most encouraging, club officials say.

Tentatively Salem will put Willie Smith or Walt Fernengle at the No. 1 position, Jim Pidgeon at No. 2, either Pete Votaw or Doc Brown (of Warren) at No. 3 and Roy Bates (of Warren) in the No. 4 position.

Tony Sheen, one of the club's players in the past seasons, is no longer with the group and will not perform this season.

Drown brings along a large string of ponies which supplements the 28

## AMVETS CAPTURE FIFTH VICTORY OVER RAMBLERS

### Win 13-7 At Centennial Park For Fifth Win In As Many Games

Salem's mighty Amvets, still unbeaten, added another scalp to their growing belt Wednesday by lacing the potent Warren Rambler outfit 13-7 at Centennial park.

Met Wukotich contributed a home run to the Salem cause while Kirby Laughlin, Crosston and Naples hit triples in the tilt. Salem blasted 13 hits.

Dave Kachner and Buster Wukotich did the hurling for the locals.

Rose of Salem, Joe Lents of Youngstown, 79; Clyde Kattner of Jefferson, 75; S. W. Everts of Cleveland, 72; Wilbur Miller, Edinburg, Pa., professional, scored an 89.

Dr. Rose and J. E. Carson of Uhrichville tied for first in the 16-yard, 50 bird event, with scores of 48. Baillie and Cady tied for

## Paul Brown Makes First Public Appearance In Columbus Since OSU Job

By FRITZ HOWELL  
Ohio AP Sports Editor

COLUMBUS, May 27 — Paul E. Brown, general manager and skipper of the Cleveland Browns, made his first public appearance here last night since surrendering the Ohio State grid coaching reins in 1944 to enter the Navy.

A bit balder, the former Massillon "miracle man" spoke at an Agonis club dinner honoring the 15 outstanding scholar-athletes of the Columbus High school.

Apparently taking cognizance of recurrent reports that he'd like to return to his old job as boss of the Buckeyes, Brown said:

"I don't know just what to talk about, without getting into difficulties, but I'm not here to pick up any of these boys for my team."

Turning to the honored guests, Brown said:

"To you boys, I'd like to say: Don't worry about the draft or other uncertainties which your youth is facing. Go to college, study hard, and be ready for anything that comes along."

"And if I were you, I'd go to Ohio State. There is no finer institution."

Brown declared "there is no conflict between college and professional football—at least on the part of the professionals."

Recalling his days as Ohio coach, Brown said:

"I drove out past our old house today. Mrs. Brown and I planted some shrubbery there, and I was surprised to see how it had grown. Then I strolled across the campus, thinking of the old days, and my entire experience here came back to me as a pleasant dream."

Turning to professional ball, Brown said "I believe the National and All-America leagues will get together before long. It's time we stopped fighting for personnel with which to fight each other. But I like to win, and we're after anyone who can help us win."

"I miss old 'wid' (Carroll D. Widdoes, OSU assistant coach) for he was a quiet, efficient guy who kept me from cutting corners too sharply."

The only disturbing memory of Ohio State days, Brown said, was the banquet honoring his 1943 "Baby Buckings."

"In 1942 when he won the Big Ten and Nation championships, 1500 persons turned out for the banquet," Brown said. "The following year, with a team of freshmen and 4-F players who did as much to uphold traditions as any team that ever represented the university, only 29 fans appeared at the banquet." The 1943 team won three, lost six.

Brown told the 380 Agonis club guests he was glad to be back for an evening, but said:

"This is the start of a week's vacation. I keep a little book containing the names of all the fellows I can beat at golf. I have seven of them with me, and starting Tuesday we'll play a different course every day."

"We'll be at Mansfield Westwood Tuesday, and then go on to Congress Lake near Akron, Brookside at Canton, Shady Hollow at Massillon and Granville Inn at Granville."

The seven, he disclosed later, are members of the Browns' coaching and office staff—all of whom probably are afraid to beat the boss.

## Willie Turnesa Still In British Amateur

SANDWICH, England, May 27.—Defending Champion Willie Turnesa, of White Plains, N. Y., met G. A. Loveday, a little known Englishman, today as he and three other United States survivors continued bids for the British amateur golf title.

Other U. S. hopes remaining after the field was reduced to 32 yesterday were Dick Chapman of Pinehurst, N. C., last year's runnerup; Frank Stranahan of Toledo, Ohio, and Bob Sweeney, Jr., part time Englishman from New York.

Two rounds were scheduled today to place the field in the quarter-finals.

## INJURY RIDDLED TRIBE CLINGING TO FIRST PLACE

### Win Without Booming Bats Of Gordon and Keltner; Edge Is Slight

(By Associated Press)

CLEVELAND, May 27 — The injury-riddled Cleveland Indians today clung to first place in the American league by only two points in the percentage table.

The Tribe, a mere shadow of the explosive club of a week ago, actually trail the Philadelphia Athletics by a half game in won-lost computations, but lead in points .679 to .677.

The Redskins were throttled completely last night as they were shut out for the first time this season, 2 to 0, by the lowly Washington Nationals.

Sid Hudson gave them only one hit in the first seven innings. The Washington right hander allowed two more in the eighth, when the Indians made their only threat of the game, but his replacement, ex-Indian Tom Ferrier, closed the door for the rest of the distance.

Without benefit of the booming bats of Joe Gordon and Ken Keltner, both of whom are sidelined with injuries, the Indians failed to advance a runner as far as third base until the eighth. In that round they filled the bases with two out, but Manager Lou Boudreau could not drive in the tying or winning runs.

The loss was charged to Gene Bearden, his first against three victories, but the rookie southpaw permitted only one earned run, and that was donated the Nats while the Indians performed a double play. The second Washington run was made possible by an error by Allie Clark, filling in for Keltner at third base.

The loss was charged to Gene Bearden, his first against three victories, but the rookie southpaw permitted only one earned run, and that was donated the Nats while the Indians performed a double play. The second Washington run was made possible by an error by Allie Clark, filling in for Keltner at third base.

## Thirty Cars Ready For Indianapolis

INDIANAPOLIS, May 27—Thirty cars were ready today to start in the 500-mile race at the Indianapolis motor speedway Monday.

Seven cars made their ten-mile qualifying runs yesterday to bring the lineup within three of the maximum starting field. The 34 un-

qualified cars remaining at the track have only Saturday left in which to try for positions.

If more than 33 cars pass the qualification test the slowest will be eliminated to hold the field to the number.

Mack Ellings of Burbank, Calif., led yesterday's seven with an average of 127.968 miles an hour in a new four-cylinder Kurtis-Kraft owned by Don Lee, Inc., Los Angeles. His run was good for \$500 and placed him in the eighth row of the starting lineup.

From where I sit... by Joe Marsh

It's Leap Year, Girls!

First girl in our town to "get her man" on Leap Year was the Cuppers' daughter, Jane, who wed Bill Webster's boy last Saturday.

When I asked Bill Jr. if it was true that Janey really did the proposing, Bill said: No, but she made it plain she'd make an ideal wife. Instead of looking for diversion or excitement every evening, she was content to chat beside the fire.

"I could plainly see," says Bill, "that we'd really have a happy home life—which is just exactly what I want from marriage."

I know it's usual for older folks to shake their heads over the younger generation. (It's gone on for hundreds of years, now.)

But from where I sit, young people of marrying age today are every bit as commendable as their elders were—in their temperance (a glass of beer for instance), tolerance, and common sense. So to Jane and Bill—the best of luck!

# Boyle's COLUMN

BY HAL BOYLE

NEW YORK—When are the test tube savants and the Bunsen burner boys going to isolate the gossip bug and develop a truth serum to detect it?

Gossip today wastes more energy than is locked up in the most muscular atom. It wrecks more homes than floods, tornadoes or a million over-activated casanovas.

Gossiping is the vice dearest to the human heart. It is a vice no animal ever had but few people are completely free of.

Gossip thrives on chaos and its end product is more chaos. In its petty form it is a device to protect one's vanity and self-esteem from admitting the worth of a better man or woman. In other cases it is merely an envious guess somebody else is enjoying a forbidden pleasure the gossip would like to indulge in himself.

In its most deadly form it is a reflection of one's own inner feeling of doubt, terror or panic.

Gossip can be spread by an artful leader to create a war. The idle malice of the unfettered tongue is perhaps even now one of the greatest barriers to international good will.

IN HALF a hundred countries it is a hidden force against peace, raising murky suspicions about the motives of American charity abroad. It is an unseen termite that can destroy the morale of a home, an office, a nation or a world—if unchecked.

Gossip is accusation without responsibility, trial without witness, persecution without reason.

It touches all subjects. The other day, for example, a taxi driver here told a friend of mine:

"See that skyscraper? It's going to fall down someday. They didn't anchor the foundation right."

The building happens to be one of the most modern in the world. No, the taxi driver admitted, he didn't know anything about engineering. But he still didn't feel the foundation had been put in right.

Gossip touches all people. No name is too high or too low for its stain. It concerns itself with every President's health—and every movie star's habits.

The headquarters for gossip today are the night club, the barroom, the cocktail party, the bridge table, the soda fountain, the country club, the beauty parlor, the backyard fence and the office water cooler.

THE OFFICE gossip is the affliction of the business world. There is no defense against him. He comes around and says, "don't you think Jones is stupid?"

"I wouldn't say that, but he hasn't set the world on fire," you answer generally.

And off lopes the gossip to tell Jones:

"Well, I know one guy that don't think you'll ever set the world on fire."

And what can you do about it? A healthy army term for baseless gossip—"Latrine Rumors." The Navy boys dismiss it as "Scuttlebutt."

But we need a truth serum to detect gossip and a penalty to punish it. When a fellow bayed some priceless bit of misinformation down your neck, you could grab his arm

and rub some truth serum on it. If it turned red, you could believe him. If it turned green, you could dismiss him as a gossip.

How to punish him? The old Anglo-Saxons tied gossips to ducking stools and immersed them a few times to cool off their hot rumors. The Puritans locked them in the stocks and ridiculed them.

Before Columbus came the Quimbaya Indians of Colombia had a golden gag for gossips. It was a nose ring to which was attached a large golden flange, hung with tiny bells that dangled below the chin. Every time the gossip even whispered, the bells jangled in warning. But if these gags ever came into

use again women might flaunt them as a new style feature. And if we gagged every beauty parlor gossip with gold, Fort Knox soon would be emptied. Science will have to develop that anti-gossip truth serum.

# MACKENZIE'S Column

BY DEWITT MACKENZIE  
AP Foreign Affairs Analyst

THE TURKS who are men of action but few words, are doing some quiet worrying for fear the Jewish-Arab conflict may result in Russian troops being sent into the middle east as part of a United Nations force to reestablish peace.

The advent of Bolshevist fighting men under such circumstances in that strategic area isn't very likely, since America, Britain and France would be dead against it. Still, Turkey's anxiety is understandable because, with Muscovites on her south and Russian domination on her northern frontier, she would be in a powerful Red vise. And the Turks regard Russia as unfriendly, which is rather a euphemistic understatement of a harsh truth.

As a Moslem nation Turkey opposed the United Nations plan for a partition of Palestine between the Arabs and the Jews. Since then the Turkish government has sat tight until just now when Foreign Minister Necmeddin Sadak declared during a speech:

"WE WISH with all our heart that without bloodshed, without setting up in this region a continuous element of disorder and insecurity, a lasting solution could be found leaving the Arabs masters of their rights."

Then Sadak shot an arrow which observers thought was aimed at Moscow:

"Our present objective is that threats of aggression, designs aimed at domination and conquest, be eliminated between peoples, and relations of friendship and mutual cooperation based on the principles of honor and dignity be established, that none should interfere in the internal affairs of another, and that each be left in peace in his territory and sovereign rights."

The foreign minister didn't in-

terpret this statement, but its significance is clear enough when you know the background, which briefly is this:

Russia is bent on establishing herself as a Mediterranean power. In order to achieve this she seeks domination of the Dardanelles strait, which now is controlled by Turkey. The Turks decline to surrender any part of their rights over this strategic waterway between the Black sea and the Mediterranean, and the issue is a turning one which could easily become acutely dangerous.

THAT BRINGS us to a new angle. The Muscovites use devious methods in applying pressure to their intended victims. Thus it was that recently the Soviet Union sent a new ambassador to Turkey—Alexander Lavrishev. His excellency has the reputation of being a tough guy and his appointment brought from observers the comment that Russia might be getting ready to put the screws on Ankara.

Foreign Minister Sadak may have similar ideas about the ambassador's mission and be showing the red light to try to halt any high pressure activities. Certainly this could be the witching hour for the Russian ghost to walk in the middle east theater, especially since the Jewish-Arab situation has been complicated by the differences between the United States and Britain. Communism thrives on trouble.

That doesn't mean the Soviet Union would deliberately embark on ventures which would produce a major war. She doesn't want a major war. However, Moscow hasn't concealed its intention to break in to the Mediterranean—if necessary at the expense of Turkey and Greece. She will pursue that objective at all costs short of war.

Over-Ripe Though Green  
If left on the tree after once becoming ripe, or orange-colored, the Valencia orange often turns back to its original green color; thus, some green oranges are over-ripe.

# Success to the Grads of 48

Congratulations to the graduates of '48! We, who have known you all your lives feel proud and a little sad as we watch you leave your classrooms behind and go forward to adulthood and the responsibility that accompanies it. Sad . . . because you have grown up so fast . . . but very proud because your records are so fine. We know you are capable of taking the world in your stride . . . of helping to make it a better and finer world for all to live in!
